Psychic Self-Test Exploring your Extra-Sensory Self

Have you ever known who was calling before you picked up the phone? Indeed, have you ever known the phone was going to ring just before it actually did?

Did you ever know what your friend or even a complete stranger was going to say before he or she said it?

Have you ever found yourself humming a favourite song only to turn on the radio and hear it playing? Were you and the radio ever at the exact same place in the song?

Have you ever had a premonition or a dream of bad news or misfortune that has to do with someone close to you, and then had the event come to pass?

Have you ever warned someone of impending bad news or bad luck, based on your intuition?

Have you ever had a 'flash' that something particular was going to happen to you or to someone you know?

Have you ever placed a bet that was based on a hunch?

Have you ever dreamt about an event that had nothing at all to do with you then found out that it came true?

Do you feel that you have a 'sixth sense' about people?

What was the most recent 'coincidence' you can remember?

Have you ever had a premonition of a national disaster?
